Strick names EkoStinger its standard option for aerodynamic undermount systems

Rochester, NY – Strick Trailers, LLC, America’s premier trailer manufacturer, has named EkoStinger as its standard option for aerodynamic undermount systems. “EkoStinger has proven to be a valuable partner with a product that many of our customers ask for”, said Stephen Burns, President, Strick Trailers. “EkoStinger’s innovative and quality design fits well with Strick’s vision of providing high-quality, customized products to our customers”.

Strick trailer installed with EkoStinger’s innovative sliding Stinger product.

“We are very excited and humbled to be named a standard option at Strick Trailers”, said Steve Smith, Executive Vice President of Sales of EkoStinger. “The entire Strick team is easy to work with and takes the necessary time to ensure customer success. EkoStinger is focused on manufacturing a quality, competitively priced aerodynamic product while delivering the highest level of customer service. Strick shares this same vision and that is why we are so proud to be associated with the Strick brand”.

About EkoStinger:

EkoStinger is a manufacturer of aerodynamic devices for over the road trailers. EkoStinger’s most popular system is their patented sliding Stinger and mist reducing mud flaps that produce 6% fuel savings at highway speeds. This system is GHG 2 BIN III verified. For more information see www.ekostinger.com

About Strick Trailers, LLC:
